UPDATE: EXANGLE® P32
EXTERNAL CORNER
BEAD

Due to popular demand, Rondo has re-introduced the P32 External Corner Bead into the EXANGLE® product range. >>

RONDO®

www.rondo.com.au

P32 EXTERNAL CORNER BEAD

The P32 bead is angled at 84° with 32mm expanded metal wings to allow the setting compound to penetrate through and under the bead, at the same time locking the bead strongly to the building board.

The shape of the nib allows the setting compound to lock into the low profile radius providing a flake-free corner after painting.

The bead will be listed as a 'special' made to order product in 2400, 2700 and 3000mm lengths.

For more information, visit www.rondo.com.au or call 1300 36 7663.
