DOUBLE PUNCHED NOGGING TRACK

Available via special order, the Rondo Double Punched Nogging Track is an addition to the Steel Stud and Track range and comes in 76mm, 92mm and 150mm Stud sizes.

Although previously available to order, Rondo has further invested in the way the product is manufactured, making it even quicker and more cost effective to produce. The resulting cost savings have assisted its use in the current Sunshine Coast University Hospital Project.

For more information visit www.rondo.com.au, or call 1300 36 7663 to speak with a Rondo Technical Sales Representative.
